Kata Pengantar

Publikasi Statistik Pemotongan Ternak Kabupaten Bondowoso 2024 merupakan publikasi tahunan yang memuat hasil pengumpulan data Rumah Potong Hewan (RPH) dan Tempat Pemotongan Hewan (TPH) baik milik pemerintah maupun swasta serta dinas yang membidangi fungsi peternakan dan kesehatan hewan di Kabupaten Bondowoso. Publikasi ini mencakup data terkait dengan kegiatan pemotongan dan produksi hasil pemotongan ternak.

Publikasi ini terwujud berkat kerjasama dan dukungan dari berbagai pihak, baik dari petugas RPH dan TPH, maupun Direktorat Jenderal Peternakan dan Kesehatan Hewan Kementerian Pertanian beserta jajarannya, serta bantuan dari pihak lainnya mulai dari kegiatan pengumpulan data sampai dengan pengolahan dan penyajian. Untuk itu, kepada semua pihak yang telah memberikan kontribusi, disampaikan penghargaan dan terima kasih.

Kritik dan saran dari pengguna data sangat diharapkan guna meningkatkan kualitas publikasi di masa mendatang. Semoga publikasi ini dapat memberikan manfaat bagi para konsumen data.

Preface

Statistics of Livestock Slaughtered in Bondowoso Regency 2024 is an annual publication containing the results of the data collection from both government and private slaughterhouse (RPH) and slaughtering place (TPH) as well as local livestock and animal health service office in Bondowoso Regency. This publication contains activity and production of slaughterhouse/slaughtering place.

This publication could be released due to the cooperation and support from various parties, both from RPH and TPH officers, and the Directorate General of Livestock and Animal Health Service Ministry of Agriculture, as well as assistance from other parties, ranging from data collection to processing and presentation. Therefore, appreciation and gratitude are conveyed to all those who have contributed.

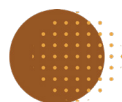

Feedback and suggestions from data users are highly encouraged to improve the quality of future publications. It is hoped that this publication will be beneficial to data users.

01

Penjelasan

Explanatory

1.1 Umum

General

Salah satu tujuan utama pembangunan Subsektor Peternakan adalah meningkatkan populasi dan produksi hasil peternakan. Produksi hasil peternakan berupa daging, telur, dan susu digunakan untuk memenuhi permintaan dalam negeri guna meningkatkan konsumsi protein hewani per kapita. Selain itu, data populasi dan produksi hasil peternakan juga dapat digunakan untuk mengukur keberhasilan swasembada daging serta program peternakan lain yang dijalankan oleh pemerintah.

Berdasarkan Keputusan Kepala Badan Pusat Statistik Nomor 6 Tahun 2000 tentang Penyelenggaraan Statistik Dasar, Badan Pusat Statistik (BPS) memiliki tanggung jawab untuk mengumpulkan data pemotongan ternak di Rumah Potong Hewan (RPH). Pengumpulan data pemotongan ternak merupakan salah satu upaya untuk mendapatkan produksi daging untuk konsumsi. Selain itu, data yang dikumpulkan juga mencakup produksi jeroan, kulit basah, serta bagian lainnya seperti kepala, kaki, dan ekor. Data produksi ini digunakan sebagai salah satu komponen pada penghitungan Pendapatan Nasional untuk Subsektor Peternakan, prognosa ketersediaan daging, dan kebutuhan analisis lainnya.

Tanda-tanda yang digunakan dalam publikasi ini antara lain tidak ada atau nol (-).

One of the main objectives of livestock subsector development is to increase the population and production of livestock products. The production of livestock products such as meat, eggs, and milk is used to meet domestic demand in order to increase per capita animal protein consumption. Additionally, population and production data of livestock products can also be used to measure the success of achieving self-sufficiency in meat and other livestock programs implemented by the government.

Based on the Decree of the Head of Statistics Indonesia-BPS Number 6 of 2000 on the Implementation of Core Statistics, BPS is responsible for collecting livestock slaughter data at slaughterhouses (Rumah Potong Hewan/RPH). The collection of livestock slaughter data serves as one of the efforts to obtain information on meat production for consumption. In addition to meat production, the data collected also includes the production of offal, wet hides, and other parts such as heads, feet, and tails. This production data is used as one of the components in calculating the National Income for the Livestock Subsector, forecasting meat availability, and supporting other analytical needs.

Symbols used in this publication are null or zero (-).

1.2 Metodologi

Methodology

Pengumpulan data dilakukan secara pendataan lengkap di Provinsi Jawa Timur, dengan frekuensi pengumpulan data secara bulanan.

Data collection conducted through a complete data collection in Jawa Timur Province, with monthly frequency of collection.

Pelaksanaan lapangan dilakukan dengan ketentuan sebagai berikut:

1. Untuk periode Januari hingga November pada tahun berjalan, data dikumpulkan pada tanggal 1 hingga 7 bulan berikutnya.
2. Untuk bulan Desember pada tahun berjalan, data dikumpulkan pada tanggal 1 hingga 7 bulan Januari tahun berikutnya.

Pengumpulan data telah dilakukan sejak tahun 1987 dengan unit observasi berupa RPH dan Keurmaster. Pada periode 2013 hingga 2022, cakupan unit observasi diperluas mencakup RPH, TPH, serta dinas yang membidangi peternakan dan kesehatan hewan di kabupaten/kota yang tidak memiliki RPH/TPH. Sejak tahun 2023, Dinas yang menangani peternakan dan kesehatan hewan ditetapkan sebagai unit observasi di setiap kabupaten/kota baik yang memiliki RPH/TPH maupun yang tidak. RPH dan TPH yang dicakup adalah RPH/TPH Ruminansia dan Babi. Ketiga unit observasi/amatan menggunakan kuesioner yang sama, yaitu Daftar LPTB.

Field implementation is carried out under the following provisions:

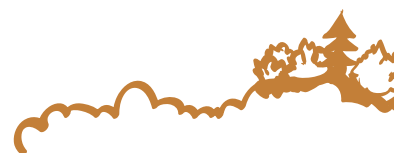

1. *For the period from January to November of the current year, data is collected from the 1st to the 7th of the following month.*
2. *For the month of December of the current year, data is collected from the 1st to the 7th of January in the following year.*

Data collection has been conducted since 1987 with slaughterhouses (RPH) and keurmasters as the observation units. Between 2013 and 2022, the scope of observation units was expanded to become slaughterhouses (RPH), slaughtering places (TPH), and local offices responsible for livestock and animal health in regencies/municipalities without RPH or TPH. Since 2023, the local offices responsible for livestock and animal health have been designated as observation units in all regencies/municipalities, regardless of whether they have slaughterhouses (RPH) or slaughtering places (TPH). The Slaughterhouse and Slaughtering Place covered are Ruminant and Swine Slaughterhouses/Slaughtering Places. All three observation units use the same questionnaire, namely Monthly Livestock Slaughter Report Questionnaire.

Daftar LPTB terdiri dari enam blok pertanyaan yaitu:

Form of LPTB consists of six blocks of questions are:

Blok I	: Pengenalan tempat	<i>1st Block : Information on Place</i>
Blok II	: Jumlah Pemotongan Ternak (ekor)	<i>2nd Block : Number of Livestock Slaughtered (heads)</i>
Blok III	: Rata-rata Berat Hidup, Karkas, Daging, Jeroan, Kulit Basah, dan Lainnya per ekor (kg)	<i>3rd Block : Average of Live Weight of livestock and production of carcass, meat, Offal, wet hide, and other production of slaughtered livestock (kg)</i>
Blok IV	: Rata-rata Harga Karkas per kg	<i>4th Block : Average price of carcass per kg</i>
Blok V	: Catatan	<i>5th Block : Notes</i>
Blok VI	: Keterangan Pemberi Informasi dan Petugas	<i>6th Block : Details on Information Provider and Officer</i>

1.3 Konsep dan Definisi

Concepts and Definitions

RPH adalah suatu bangunan atau kompleks bangunan dengan desain dan syarat tertentu yang digunakan sebagai tempat memotong hewan (ruminansia, babi, atau unggas) bagi konsumsi masyarakat umum, baik milik pemerintah maupun swasta.

TPH adalah suatu tempat pemotongan hewan selain Rumah Potong Hewan (RPH) (termasuk pedagang), baik mempunyai bangunan maupun tidak, dimana ternak yang dipotong sebagian/ seluruhnya milik pihak lain dan bukan untuk konsumsi sendiri

Dinas yang Membidangi Fungsi Peternakan dan Kesehatan Hewan adalah unsur pelaksana pemerintahan kabupaten/kota yang menangani pekerjaan terkait dengan fungsi peternakan dan kesehatan hewan di kabupaten/kota.

Karkas adalah bagian dari tubuh ruminansia sehat yang telah disembelih secara halal dan benar, dikuliti, dikeluarkan jeroan, dipisahkan kepala, kaki mulai dari tarsus/karpus ke bawah, organ reproduksi dan ambing, ekor, serta lemak yang berlebih

Daging adalah sekumpulan otot yang melekat pada kerangka dan tidak mengandung tulang. Daging terdiri dari tiga komponen utama yaitu jaringan otot (*muscle tissue*), jaringan ikat (*connective tissue*), dan jaringan lemak (*adipose tissue*).

Jeroan adalah organ tubuh bagian dalam (hati, usus, paru, jantung, limpa, dan babat) dari ternak yang dipotong serta dimanfaatkan.

Slaughterhouse are It is a building or complex of buildings with specific design and conditions used as a place for slaughtering animals (ruminants, pigs, or poultry) for public consumption, whether owned by the government or private entities.

Slaughtering Place are a place for slaughtering animals other than Slaughterhouses (including traders), whether with or without buildings, where the livestock slaughtered partially or entirely belongs to others and is not for personal consumption.

Local Livestock and Animal Health Service Office are governmental body at the regency/municipality level that handles tasks related to livestock and animal health in the respective regency/municipality.

Carcass is part of a healthy ruminant's body that has been slaughtered in a proper and halal manner, skinned, eviscerated, and had its head, limbs from the tarsus/ carpus downward, reproductive organs, udder, tail, and excess fat removed.

Meat is a collection of muscles attached to the skeleton that does not contain bones. It consists of three main components: muscle tissue, connective tissue, and adipose (fat) tissue.

Offal refers to the internal organs (such as the liver, intestines, lungs, heart, spleen, and stomach) of slaughtered livestock that are utilized for consumption or other purposes.

Kulit Basah adalah kulit ternak yang dipotong dan belum mengalami proses pengeringan/pengolahan.

Produksi lainnya adalah produksi lain dari ternak yang dipotong selain karkas, jeroan, dan kulit basah. Contohnya kepala, kaki bagian bawah, ekor, tanduk, dan lain-lain.

Sapi Lokal adalah sapi potong yang lahir di **Jawa Timur**.

Sapi Potong Ex-Impor adalah sapi potong yang lahir di luar Indonesia.

Wet hide refers to the hide of slaughtered livestock that has not undergone any drying or processing.

Other productions refer to livestock products obtained from slaughtered livestock aside from the carcass, offal, and wet hide. This includes the head, lower legs, tail, horns, and others.

Local Cattle are cattle that were born in **Jawa Timur**.

Ex-Imported Cattle are cattle that were born outside Indonesia.

02 Ringkasan

Summary

02

Ringkasan

Summary

2.1 Jumlah RPH/TPH

Number of Slaughterhouses/Slaughtering places

Data yang tergambarkan pada Gambar 2.1 menunjukkan bahwa pada Januari 2024, jumlah RPH/TPH yang aktif melakukan pemotongan ternak di Kabupaten Bondowoso sebanyak 6 unit. Jumlah RPH/TPH yang aktif ini tidak berubah setiap bulannya. Hingga akhir tahun 2024, jumlah tersebut masih tetap sebanyak 6 unit.

RPH/TPH yang tidak aktif melakukan pemotongan adalah RPH/TPH yang tutup sementara (berhenti berproduksi atau tidak melakukan pemotongan, biasanya direncanakan akan kembali berproduksi kurang dari 1 (satu) tahun) atau tutup (RPH/TPH yang secara fisik sudah tidak ada, misalnya dibongkar atau alih kegiatan dari melakukan pemotongan ternak).

Keberadaan RPH/TPH tersebar di sebagian Kecamatan. Pada bulan Desember 2024, Kabupaten Bondowoso merupakan Kabupaten/Kota dengan jumlah RPH/TPH terbanyak yang aktif ke-13 (6 unit) di seluruh Provinsi Jawa Timur, setara dengan Kabupaten Probolinggo, Kabupaten Bojonegoro, dan Kabupaten Pamekasan.

The data presented in Figure 2.1 show that in January 2024, the number of slaughterhouses or slaughtering places (RPH/TPH) actively operating in Bondowoso regency were 6 units. This number did not change from month to month. Up to the end of 2024, the number of active facilities remains unchanged at 6 units.

Slaughterhouses/slaughtering places that are not active in slaughtering are those temporarily closed (ceased production or not conducting slaughtering, usually planned to resume production within less than 1 year) or closed (physically non-existent slaughterhouses/slaughtering place, for example, dismantled or converted to activities other than livestock slaughtering).

The presence of Slaughterhouses/ Slaughtering Places is distributed across some/all subdistricts. In December 2024, Bondowoso Regency had the 13th highest number of active RPH/TPH facilities (6 units) in the entire Jawa Timur Province, along with Probolinggo Regency, Bojonegoro Regency, and Pamekasan Regency.

Jumlah RPH/TPH pada akhir tahun 2024 ada sebanyak 6 unit yang tersebar di 6 Kecamatan.

The number of Slaughterhouses/ Slaughtering Places at the end of 2024 was 6 units distributed across 6 subdistricts.

JUMLAH RPH/TPH YANG AKTIF MELAKUKAN PEMOTONGAN TERNAK MENURUT BULAN, 2024

Number of Active Slaughterhouses/Slaughtering Places Conducting Livestock Slaughtering by Month, 2024

PERBANDINGAN JUMLAH RPH/TPH YANG AKTIF MELAKUKAN PEMOTONGAN TERNAK DI PROVINSI JAWA TIMUR, DESEMBER 2024

Number of Active Slaughterhouses/Slaughtering Places Conducting Livestock Slaughtering Comparison in Jawa Timur Province, December 2024

Gambar 2.1 Jumlah RPH/TPH yang Aktif Melakukan Pemotongan Ternak Menurut Bulan dan Perbandingan Jumlah RPH/TPH yang Aktif Melakukan Pemotongan Ternak di Jawa Timur, Desember 2024

Figure 2.1 Number of Active Slaughterhouses/Slaughtering Places Conducting Livestock Slaughtering by Month and Number of Active Slaughterhouses/Slaughtering Places Conducting Livestock Slaughtering Comparison in Jawa Timur Province, December 2024

Sumber/Source : Badan Pusat Statistik, Laporan Pemotongan Ternak Bulanan 2024/BPS-Statistics Indonesia, The 2024 Monthly Livestock Slaughter Report

Berdasarkan Gambar 2.2, terdapat tiga kabupaten dengan jumlah RPH/TPH yang aktif melakukan pemotongan ternak di wilayahnya yang sama dengan Kabupaten Bondowoso. Kabupaten tersebut adalah Probolinggo, Bojonegoro, dan Pamekasan

Based on Figure 2.2, there are three regencies with the same number of active Slaughterhouses/Slaughtering Places conducting livestock slaughtering in all regencies/municipalities within their respective regions as Bondowoso Regency. These regencies are Probolinggo, Bojonegoro, and Pamekasan.

Apabila di wilayah kabupaten/kota tidak terdapat RPH/TPH, maka data pemotongan ternak diperoleh dari catatan dinas yang membidangi fungsi peternakan dan kesehatan hewan di kabupaten/kota bersangkutan. Dinas tersebut juga merupakan unit observasi yang wajib dikunjungi oleh petugas di masing-masing kabupaten/kota dengan harapan semua data pemotongan ternak tercatat dapat dicakup 100 persen di seluruh Jawa Timur.

If there are no Slaughterhouses/Slaughtering Places in the regency/municipality area, livestock slaughter data are obtained from records maintained by the local government office responsible for livestock and animal health functions. This office also serves as an observation unit that must be visited by enumerators in each regency/municipality, with the expectation that all recorded livestock slaughter data can be comprehensively covered across Jawa Timur.

Selain terdapat RPH/TPH yang aktif melakukan pemotongan ternak, terdapat juga RPH/TPH yang tidak aktif melakukan pemotongan ternak dikarenakan tutup sementara, tutup, atau belum beroperasi. Pada bulan Desember 2024, Tidak terdapat RPH/TPH yang tidak aktif melakukan pemotongan ternak di Kabupaten Bondowoso.

Besides the active slaughterhouses/slaughtering places that conduct livestock slaughtering, there are also inactive slaughterhouses/slaughtering places due to temporary closure, permanent closure, or not yet operated. In December 2024, there is no inactive slaughterhouses/slaughtering places in Bondowoso Regency.

2.2 Jumlah Pemotongan Ternak

Number of Livestock Slaughtered

Gambar 2.3 menunjukkan pada tahun 2024 terdapat 5.139 ekor sapi yang dipotong di RPH/TPH. Pemotongan sapi merupakan pemotongan jenis ternak yang jumlahnya tertinggi dibandingkan dengan jenis ternak ruminansia lain serta babi. Sementara itu, tidak ada pemotongan kerbau, kambing, dan babi yang dilakukan di RPH/TPH di Kabupaten Bondowoso.

Selama tahun 2024, jumlah pemotongan sapi setiap bulannya menunjukkan pola yang fluktuatif. Pemotongan sapi tertinggi terjadi pada bulan April, yaitu sebanyak 680 ekor. Sedangkan jumlah pemotongan sapi terendah tercatat pada bulan Agustus, yaitu sebanyak 300 ekor.

Pemotongan ternak sapi tercatat terjadi di seluruh kabupaten/kota di Provinsi Jawa Timur. Berdasarkan Tabel 3.1.1, puncak pemotongan ternak sapi selama tahun 2024 terjadi pada triwulan II. Jika dibandingkan dengan triwulan I, jumlah ternak sapi yang dipotong pada triwulan II mengalami peningkatan sebesar 21,59 persen. Peningkatan ini dipicu oleh perayaan hari besar keagamaan umat Islam, yaitu Hari Raya Idul Adha, yang jatuh pada bulan Juni 2024. Namun, pada triwulan III, jumlah pemotongan ternak sapi mengalami penurunan sebesar 31,13 persen dibandingkan triwulan sebelumnya. Meskipun demikian, pada triwulan IV 2024, jumlah pemotongan ternak sapi kembali meningkat sebesar 10,35 persen dibandingkan triwulan III.

Pemotongan ternak kerbau, yang dagingnya biasa digunakan sebagai alternatif daging sapi, tidak dipotong di RPH/TPH di Kabupaten Bondowoso. Hal ini umumnya dikarenakan preferensi dari pemilik kerbau yang biasanya lebih suka memanggil ahli sembelih dibandingkan datang ke RPH/TPH.

Figure 2.3 shows that in 2024, there were 5.139 cattle slaughtered in slaughterhouses/slaughtering places. Cattle has the highest slaughter number compared to other ruminant livestock and pigs. Meanwhile, there is no number of buffaloes, goats, and pigs slaughtered in slaughterhouses in Bondowoso Regency.

Throughout 2024, the monthly number of livestock slaughtered exhibited a fluctuating pattern. The highest numbers of cattle slaughters occurred in April, as many as 680 headss. Meanwhile, the lowest number of cattle slaughters was recorded in August, as many as 300 heads.

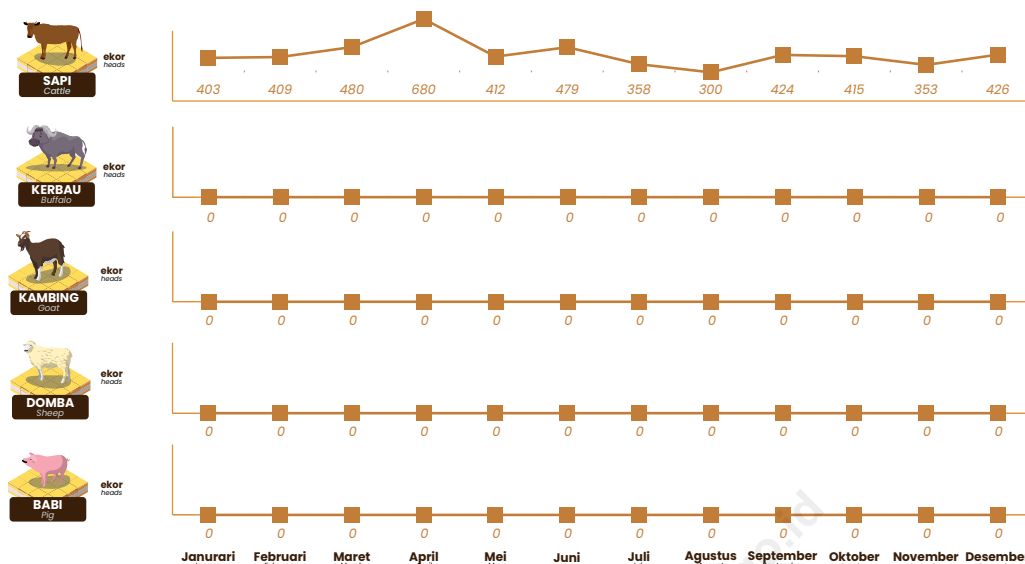

Cattle slaughtering was recorded in all Regency/Municipality in Jawa Timur Province. According to Tables 3.1.1, the peak of cattle slaughtering in 2024 occurred in the second quarter. Compared to the first quarter, the number of cattle slaughtered in the second quarter increased by 21.59 percent. This increase was driven by the Islamic religious holiday, Eid al-Adha, which took place in June 2024. However, in the third quarter, the figures declined by 31.13 percent compared to the second quarter, and in the fourth quarter, it rose again by 10.35 percent from the previous quarter.

Buffalo slaughtering, in which its meat often serving as an alternative to beef, is not practiced in slaughterhouses in Bondowoso Regency. This is generally due to the preference of buffalo owners, who usually prefer to call in a slaughter expert rather than go to a slaughterhouse.

PERKEMBANGAN JUMLAH PEMOTONGAN TERNAK DI RPH/TPH MENURUT JENIS TERNAK DAN BULAN, 2024

Trends in the Number of Livestock Slaughtered in Slaughterhouse/Slaughtering Place
by Type of Livestock and Month, 2024

Gambar 2.2 Perkembangan Jumlah Pemotongan Ternak di RPH/TPH Menurut Jenis Ternak dan Bulan, 2024
Figure 2.2 Trends in the Number of Livestock Slaughtered in Slaughterhouse/Slaughtering Place
by Type of Livestock and Month, 2024

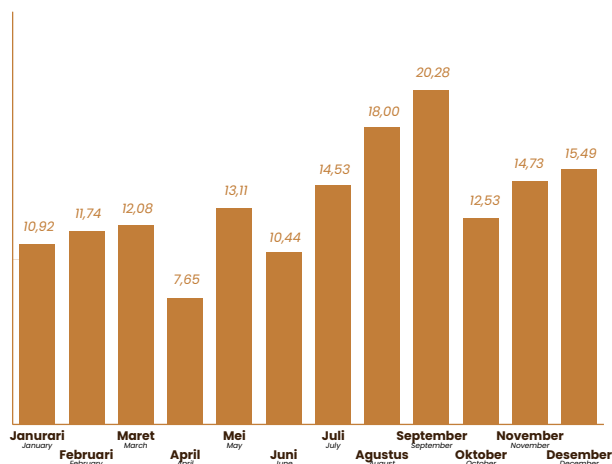

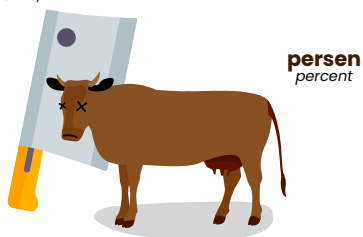

Sumber/Source : Badan Pusat Statistik, Laporan Pemotongan Ternak Bulanan 2024/BPS-Statistics Indonesia, The 2024 Monthly Livestock Slaughter Report

Pemotongan ternak sapi betina umumnya dihindari untuk keberlangsungan populasi ternak sapi yang beredar di Provinsi Jawa Timur, namun pada pelaksanaan lapangan pemotongan ternak sapi betina ini tidak dapat dihindari dikarenakan ternak sapi betina ini umumnya dipotong karena sudah tidak produktif lagi untuk menghasilkan anakan sapi. Persentase pemotongan ternak sapi betina di RPH/TPH dan di Luar RPH/TPH (Catatan Dinas yang Membidangi Fungsi Peternakan dan Kesehatan Hewan) di Provinsi Jawa Timur, cukup kecil dibandingkan total jumlah pemotongan sapi bervariasi dari paling rendah sebesar 7,65 persen pada April 2024 dan paling tinggi di 20,28 persen pada September 2024.

The slaughter of female cattle is generally avoided for the sake of the sustainability of the cattle population in Jawa Timur Province, but in practice, the slaughter of female cattle is unavoidable because these animals are generally slaughtered when they are no longer productive in terms of producing calves. The percentage of female cattle slaughtered in slaughterhouses/slaughtering place and outside slaughterhouses/slaughtering place (according to records from the Office in charge of Livestock and Animal Health) in Jawa Timur Province is quite small compared to the total number of cattle slaughtered, varying from a low of 7.65 percent in April 2024 to a high of 20.28 percent in September 2024.

PERSENTASE PEMOTONGAN TERNAK SAPI BETINA DIBANDINGKAN TOTAL PEMOTONGAN TERNAK SAPI MENURUT BULAN, 2024

Percentage of Female Cattle Slaughtered Compared to Total Cattle Slaughtered by Month, 2024

Gambar 2.3 Persentase Pemotongan Ternak Sapi Betina Dibandingkan Total Pemotongan Ternak Sapi Menurut Bulan, 2024

Figure 2.3 Percentage of Female Cattle Slaughtered Compared to Total Cattle Slaughtered by Month, 2024

Sumber/Source : Badan Pusat Statistik, Laporan Pemotongan Ternak Bulanan 2024/BPS-Statistics Indonesia, The 2024 Monthly Livestock Slaughter Report

Sedangkan, tidak ada untuk pemotongan ternak kerbau, kambing, domba, dan babi yang tercatat di di RPH/TPH dan di Luar RPH/TPH (Catatan Dinas yang Membidangi Fungsi Peternakan dan Kesehatan Hewan) di Kabupaten Bondowoso.

Meanwhile, there is no slaughter of female buffalo recorded at slaughterhouses/slaughtering place and outside slaughterhouses/slaughtering place (according to records from the Department of Livestock and Animal Health) in Bondowoso Regency.

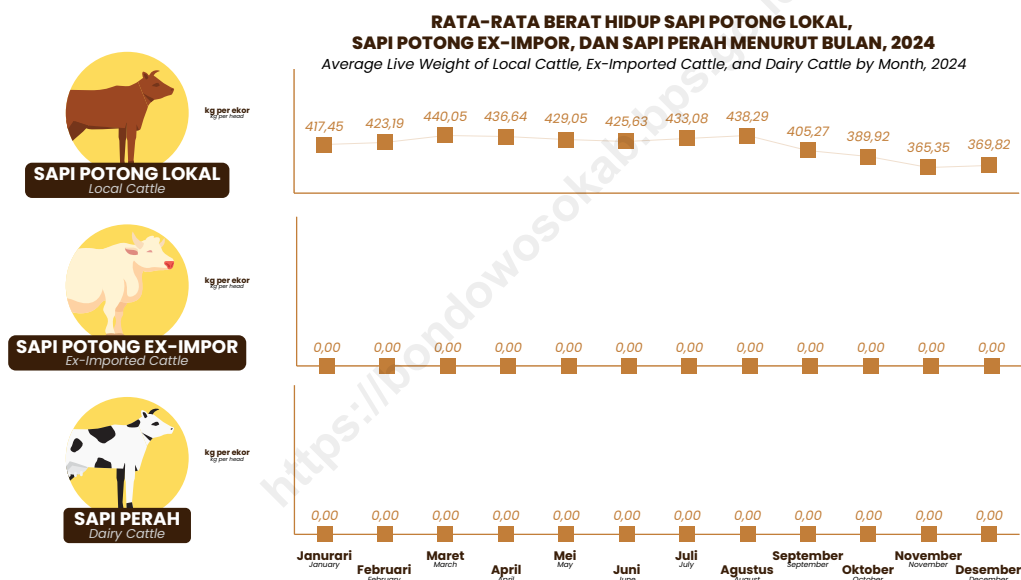

2.3 Rata-Rata Berat Hidup Sapi

Average of Live Weight of Cattle

Menurut Gambar 2.6, rata-rata berat hidup sapi potong lokal yang dipotong di RPH/TPH pada tahun 2024 sebesar 414,48 kg per ekor. Sedangkan, untuk pemotongan sapi potong ex-impor dan sapi perah tidak terdapat di RPH/THP Kabupaten Bondowoso tahun 2024. Jika dianalisis berdasarkan bulan, sebagaimana ditampilkan dalam Gambar 2.6, berat hidup sapi potong lokal bervariasi antara 365,35 kg per ekor hingga 440,05 kg per ekor. Rata-rata berat hidup sapi potong lokal terendah ada pada bulan November dan tertinggi ada pada bulan Maret.

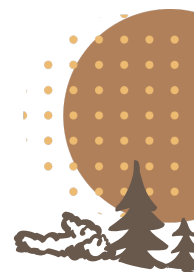

According to Figure 2.6, the average live weight of local cattle slaughtered in slaughterhouses/slaughtering places in 2024 were 414.48 kg per head. Meanwhile, there is no ex-import cattle and dairy cattle slaughtered in slaughterhouses/slaughtering places in Bondowoso Regency 2024. In terms of month, as shown in Figure 2.6, the live weight of local cattle slaughtered was ranged from 365.35 kg to 440.05 kg per head. The lowest average live weight of local cattle slaughtered in slaughterhouses/slaughtering places occurred on November, while the highest occurred on March.

Gambar 2.4 Rata-Rata Berat Hidup Sapi Potong Lokal, Sapi Potong Ex-Import, Dan Sapi Perah Menurut Bulan, 2024

Figure 2.4 Average of Live Weight of Local Cattle, Ex-Imported Cattle, and Dairy Cattle by Month, 2024

Sumber/Source : Badan Pusat Statistik, Laporan Pemotongan Ternak Bulanan 2024/BPS-Statistics Indonesia, The 2024 Monthly Livestock Slaughter Report

2.4 Rata-Rata Produksi Karkas dan Daging

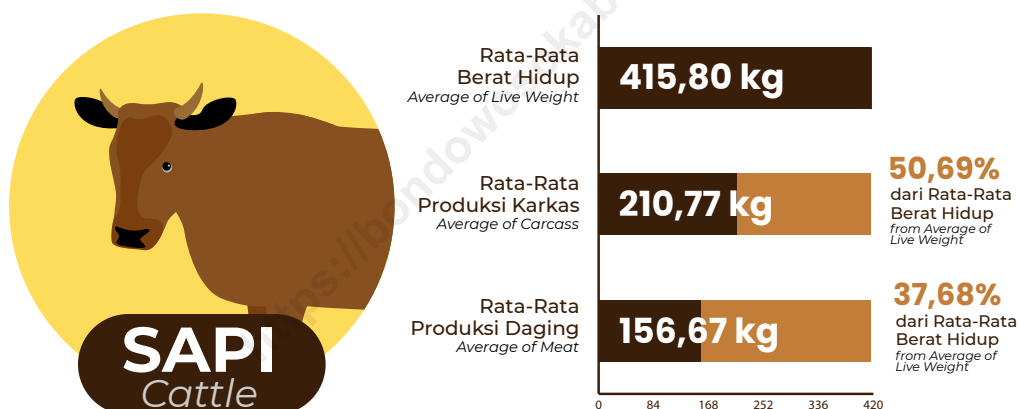

Average Production of Carcass and Meat

Rata-rata produksi karkas per ekor dan/atau rata-rata produksi daging per ekor adalah parameter yang digunakan untuk menghitung total produksi daging per bulan, per triwulan, atau per tahun dari seluruh ternak yang dipotong di RPH/TPH. Parameter ini menjadi sangat penting tat kala di RPH/TPH tidak tersedia fasilitas untuk menimbang berat karkas atau daging. Hal ini disebabkan oleh keterbatasan fasilitas yang dimiliki oleh sebagian besar RPH/TPH.

Berdasarkan Gambar 2.7, pada tahun 2024 rata-rata produksi karkas sapi per ekor sekitar 50,69 persen dari berat hidupnya. Di Kabupaten Bondowoso, hanya terdapat jenis sapi lokal di Kabupaten Bondowoso. Persentase daging sapi per ekor adalah 37,68 persen dari berat hidup.

The average carcass production per head and/or average meat production per head are parameters used to calculate the total meat production per month, per quarter, or per year for all livestock slaughtered at slaughterhouses/slaughtering places (RPH/TPH). These parameters become crucial when RPH/TPH lack facilities to weigh the carcass or meat, as is frequently the case in the majority of RPH/TPH.

Based on Figure 2.7, in 2024 the Average of Carcass Production of cattle per head was approximately 50.69 percent of its live weight. There is only local cattle in Bondowoso Regency. The percentage of meat production per head was 37.68 percent of the live weight.

2.5 Pemotongan Ternak di Luar RPH/TPH

Livestock Slaughtered Outside Slaughterhouse/Slaughtering Places

Pemotongan ternak di luar RPH/TPH yang dicakup adalah pemotongan ternak yang dilakukan di luar RPH/TPH dan dicatat oleh atau dilaporkan ke Dinas yang Membidangi Fungsi Peternakan dan Kesehatan Hewan di Kabupaten/Kota.

The slaughtering of livestock outside slaughterhouse/slaughtering place that is covered refers to livestock slaughtering conducted outside of slaughterhouse/slaughtering place and recorded by or reported to the Local Livestock and Animal Health Service Office in the Regency/Municipality.

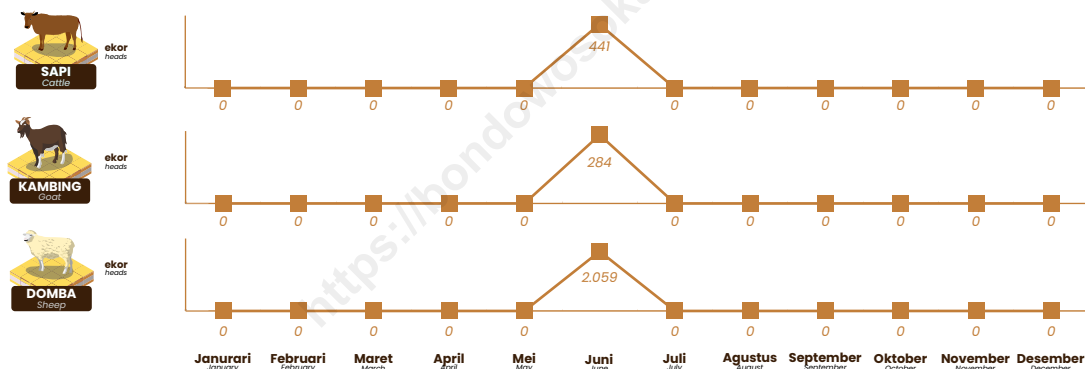

Seperti yang ditunjukkan pada Gambar 2.8, jumlah pemotongan sapi, kambing, dan domba di luar RPH/TPH pada tahun 2024 terdapat pada bulan Juni. Hal ini dikarenakan pelaksanaan ibadah kurban pada Hari Raya Iduladha di bulan tersebut. Sebanyak 441 ekor sapi dipotong pada bulan Juni 2024 di Kabupaten Bondowoso.

As indicated in Figure 2.8, the number of slaughtered cows, goats, and sheep outside the RPH/TPH in 2024 occurred in June. This is due to the implementation of the sacrificial rites on Eid al-Adha in that month. A total of 441 cattle were slaughtered in June.

PERKEMBANGAN JUMLAH PEMOTONGAN TERNAK DI LUAR RPH/TPH MENURUT JENIS TERNAK DAN BULAN, 2024

Sumber/Source : Badan Pusat Statistik, Laporan Pemotongan Ternak Bulanan 2024/BPS-Statistics Indonesia, The 2024 Monthly Livestock Slaughter Report

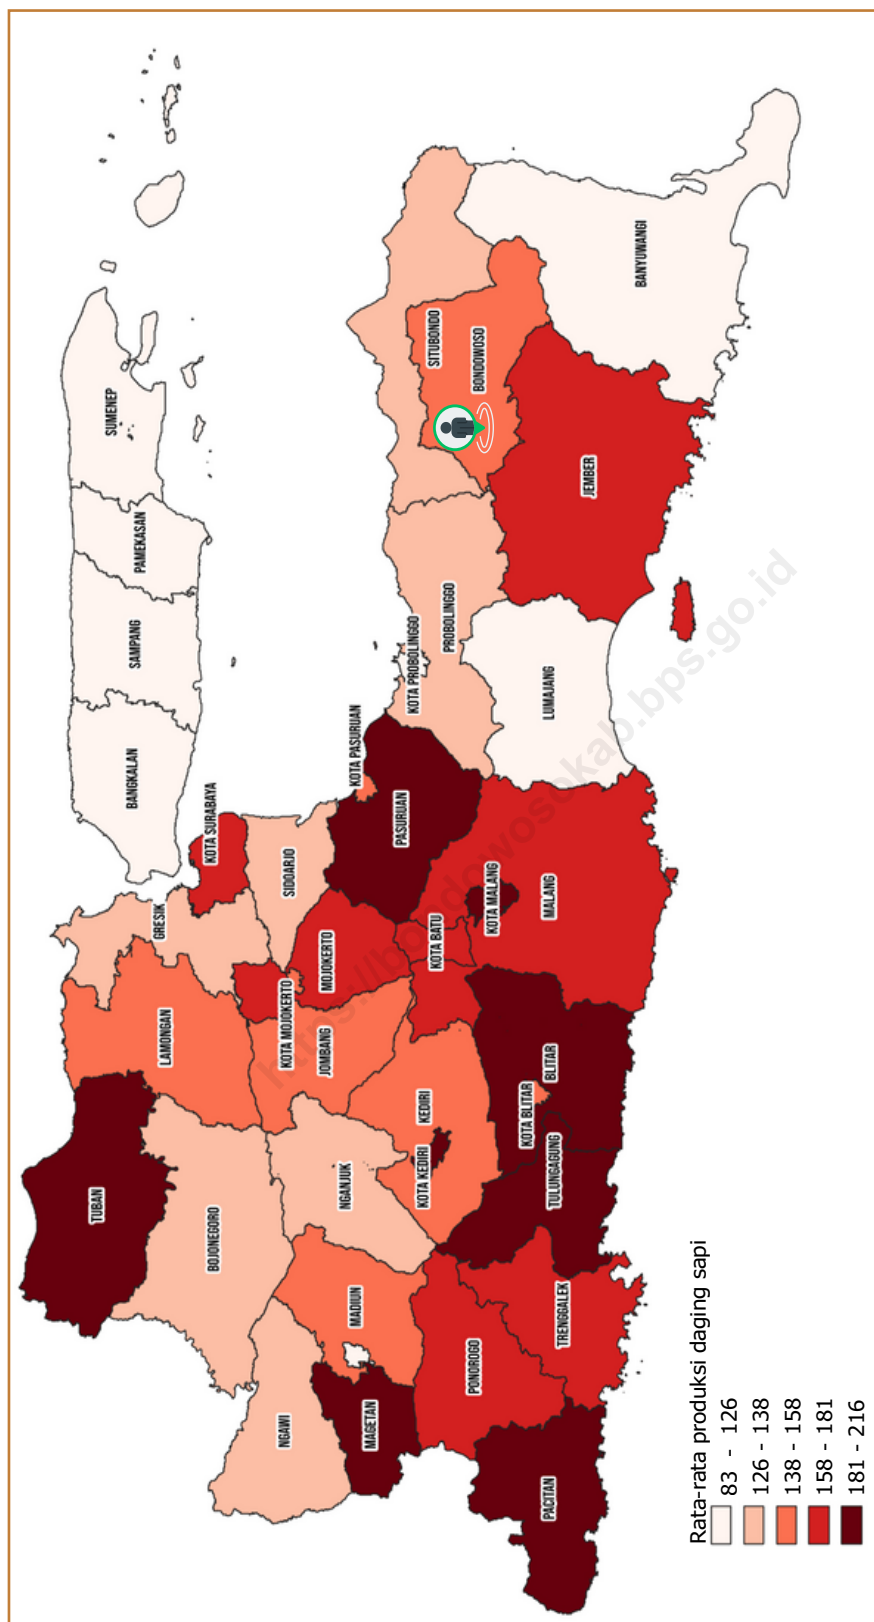

Sementara itu, jumlah pemotongan kambing di luar RPH/TPH pada bulan Juni mencapai 284 ekor dan domba mencapai 2.059 ekor. Domba menjadi angka tertinggi dari jumlah pemotongan ternak di luar RPH/TPH di Kabupaten Bondowoso tahun 2024

The number of goats slaughtered outside slaughterhouses/slaughtering places (RPH/TPH) in June was 284 heads and the sheeps was 2.059 heads. Sheeps become the highest number of livestock slaughtered outside slaughterhouses/slaughtering places (RPH/TPH) in Bondowoso Regency on 2024.

LAPORAN PEMOTONGAN TERNAK BULANAN

Tujuan pencatatan adalah untuk memperoleh data pemotongan ternak yang akurat dan tepat waktu sebagai bahan perencanaan pembangunan

BLOK I. PENGENALAN TEMPAT

101. Provinsi :
102. Kabupaten/Kota :
103. Kecamatan :
104. Desa/Kelurahan :
105. KIP (Kode Identitas Perusahaan) :
106. Nama RPH/TPH/Dinas :
107. Alamat RPH/TPH/Dinas :
108. Koordinat lokasi RPH/TPH/Dinas : *GPS Geotagging Location*
109. Klasifikasi
☐ 1. RPH
☐ 2. TPH
☐ 3. Dinas
110. Kondisi RPH/TPH
☐ 1. Aktif
☐ 2. Tutup Sementara → *Lanjut ke Blok V*
☐ 3. Baru
☐ 4. Tutup → *Lanjut ke Blok V*
☐ 5. Belum Beroperasi → *Lanjut ke Blok V*
111. Tahun Pemotongan Ternak :
112. Bulan Pemotongan Ternak :

BLOK II. JUMLAH PEMOTONGAN TERNAK (EKOR)

201. Apakah ada ternak yang dipotong pada [BULAN] [TAHUN] ini?
☐ 1. Ada
☐ 2. Tidak Ada → *Lanjut ke Blok V*

Lanjutan Lampiran/Continued Appendix 1

202. Apa saja jenis ternak yang dipotong pada [BULAN] [TAHUN] ini?
